

AMENDMENTS TO THE CLAIMS:

The following listing of claims replaces all prior listings, and all prior versions, of claims in the application.

LISTING OF CLAIMS:

1. (Currently amended) A coating film obtained by polymerizing and curing a coating composition comprising (A) 100 parts by weight of a thiirane ring-containing compound, (B) 0.0001 to 10 parts by weight of a catalyst for accelerating polymerization of the thiirane ring-containing compound, and (C) 0.005 to 4 parts by weight of a modified silicone oil selected from the group consisting of:

wherein X is each independently halogen, an alkoxy group having 1 to 36 carbon atoms, an alkyl group having 1 to 36 carbon atoms, an aliphatic ester group having 1 to 36 carbon atoms, a polyether group which may contain a hydrocarbon group having 1 to 36 carbon atoms in total; and y and z are each independently an integer of 1 or more.

2. (Currently amended) The coating ~~composition-film~~ according to claim 1, wherein the coating film composition further comprising 1 to 30 parts by weight of (D) a silane coupling agent.

3. (Currently amended) The coating ~~composition-film~~ according to claim 1, wherein the compound (C) ~~have~~ has a surface-active property.

4. (Currently amended) The coating ~~composition-film~~ according to claim 1, wherein the compound (A) has at least one structure represented by the following structural formula (1):

5. (Currently amended) The coating ~~composition-film~~ according to claim 1, wherein the compound (A) has a structure represented by the following structural formula (2):

wherein m is an integer of 0 to 4; and n is an integer of 0 to 2.

6. (Cancelled)

7. (Currently amended) An optical product provided on a surface thereof with the coating film as defined in claim ~~6~~1.

8. (Currently amended) The coating ~~composition-film~~ according to claim 2, wherein the compound (C) have a surface-active property.

9. (Cancelled)

10. (Currently amended) An optical product provided on a surface thereof with the coating film as defined in claim ~~9~~8.

11. (New) The coating film according to claim 1, wherein said coating film has a thickness of about 0.1 to 1000 μm .

12. (New) The coating film according to claim 1, wherein said coating film has a thickness of about 0.5 to 500 μm .

13. (New) The coating film according to claim 1, wherein said coating film has a thickness of about 1 to 100 μm .

14. (New) The coating film according to claim 1, which further includes an inorganic filler.
